CEC COVID-19 SAFETY GUIDELINES:

- All staff are required to wear a well fitted mask on campus, preferably medical/surgical grade. But for children indoor and outdoor masking is optional based on parents request.
- All teachers are required to be boosted on schedule (most teachers have already received their boosted shot).
- Parents will continue to drop off and pick up at the classroom doors
- Parents are to mask on campus at all times

If a closure is needed in the 0-2 program / Preschool due to an exposure concern:

- **Positive COVID Case (teacher or child):**
 - In the 0-2 program there will be a 3 day closure period for unvaccinated children and have a PCR test to return to school.
 - In the Pk programs there will be no closure period, and all children (and teachers) will need a negative test to return to school. Home test results will be accepted.
 - All travel restrictions have also been removed, children must test to return to school.
 - All teachers will test before returning to the classroom. CEC will accept a home antigen test.
 - Please note that all of these timelines are greatly dependent on the teachers' health and COVID status as we will need to maintain ratios.

Our continued need to navigate the pandemic in childcare settings has been an humbling learning experience for me as a program leader. It is our greatest desire to keep children in care safely to support families' ability to serve the greater community with their varied talents and skills as professionals. We thank you for choosing CEC as your child's education and care provider.

Thank You,
